Mercury/Mariner 90 HP (1995-2006)

Thoroughly revised and expanded, Introduction to Attic Greek, 2nd Edition gives student and instructors the most comprehensive and accessible presentation of ancient Greek available. The text features: • Full exposure to the grammar and morphology that students will encounter in actual texts • Self-contained instructional chapters, with challenging, carefully tailored exercises • Progressively more complex chapters to build the student's knowledge of declensions, tenses, and constructions by alternating emphasis on morphology and syntax • Readings based on actual texts and include unadapted passages from Xenophon, Lysias, Plato, Aristophanes, and Thucydides. • Concise introduction to the history of the Greek language • Composite list of verbs with principal parts, and an appendix of all paradigms • Greek-English and English-Greek glossaries Additional Resources: • Robust online supplements for teaching and learning available at atticgreek.org • Answer Key to exercises also available from UC Press (978-0-520-27574-4)
