available at all hours of the day. While this makes people stay connected virtually, our modern lives are making us less connected as we no longer connect with physical people but simulations of them. And not only is technology providing us with an endless network of people, but it is also equipping us with robots who can do more than just take on mindless or dangerous tasks. Now, robots are providing humans with care and demanding that we care for them. In *Alone Together*, author Sherry Turkle explores the power of these new technologies and shares both sides of today's digital culture. As you read, you'll learn how robots can be therapeutic for the elderly, why being constantly connected leads to stress, and why people use virtual avatars to cope with the stresses of life.

"Savvy and insightful." --New York Times Technology has become the architect of our intimacies. Online, we fall prey to the illusion of companionship, gathering thousands of Twitter and Facebook friends, and confusing tweets and wall posts with authentic communication. But this relentless connection leads to a deep solitude. MIT professor Sherry Turkle argues that as technology ramps up, our emotional lives ramp down. Based on hundreds of interviews and with a new introduction taking us to the present day, *Alone Together* describes changing, unsettling relationships between friends, lovers, and families.

Investigates a troubling consequence: that we have stopped having face-to-face conversation in favour of technological connections such as texts or emails. Based on five years of research and interviews in homes, schools and the workplace, Turkle argues here that we now have a better understanding of this phenomenon, and that going forward, it's time we reclaim conversation, the most human thing that we do.

It was 1935. Flame-haired Teddy Lynch finished singing "Alone Together" at the swanky nightclub the New Yorker and left the stage to find a charming stranger at her friends' table. It was Jean Paul Getty, enigmatic oil tycoon and America's first billionaire. In her passionate, unflinchingly honest memoir of two outsize lives entwined, Theodora "Teddy" Getty Gaston—now one hundred years old—reveals the glamorous yet painful story of her marriage to Getty. As formidable as he was, Teddy was equally strong-minded and flamboyant, and their clutches and clashes threw off sparks. She knew the vulnerable side of Getty—he underwent painful plastic surgery

and suffered terrible phobias—that few, if any, saw. A vivid love story, *Alone Together* is also a fascinating glimpse into the twentieth century from the vantage point of one of its most remarkable couples. This is how the other half lived—dinner dances, satin gowns, beach houses, hotel suites, first-class cabins on the *Queen Mary*. Teddy's extra-ordinary life story moves from the glittering nightclubs of 1930s New York City to Mussolini's Italy, where she was imprisoned by the fascist regime, to California in the golden postwar years, where Paul and Teddy socialized with movie stars and the elite. But life with one of the world's richest men wasn't all glitz and glamour. Though terrifically charismatic in person, Getty grew more miserly as his wealth increased. Worse, he often left Teddy and their son, Timothy, behind for years at a time while he built planes for the war effort in the 1940s or brokered oil deals—he was the first American to lease mineral rights in Saudi Arabia, which made him, at his death, the richest man in the world. Even when Timothy was diagnosed with a brain tumor, Getty complained about medical bills and failed to return to the United States to support his wife and son. When Timothy died at age twelve, the marriage was already falling apart. Teddy's unrelenting spirit, her valiant friendship, and her winning lack of vanity transform what could have been a sob story into a nuanced portrait of a brilliant but stubbornly difficult man and the family he loved but left behind, as well as an enchanting view into a bygone era. This was a life lived from the heart.

“A beautiful book... an instant classic of the genre.”

Book Review Editors' Choice MIT psychologist and bestselling author of *Reclaiming Conversation* and *Alone Together*, Sherry Turkle's intimate memoir of love and work. For decades, Sherry Turkle has shown how we remake ourselves in the mirror of our machines. Here, she illuminates our present search for authentic connection in a time of uncharted challenges. Turkle has spent a career composing an intimate ethnography of our digital world; now, marked by insight, humility, and compassion, we have her own. In this vivid and poignant narrative, Turkle ties together her coming-of-age and her pathbreaking research on technology, empathy, and ethics. Growing up in postwar Brooklyn, Turkle searched for clues to her identity in a house filled with mysteries. She mastered the codes that governed her mother's secretive life. She learned never to ask about her absent scientist father--and never to use his name, her name. Before empathy became a way to find connection, it was her strategy for survival. Turkle's intellect and curiosity brought her to worlds on the threshold of change. She learned friendship at a Harvard-Radcliffe on the cusp of coeducation during the antiwar movement, she mourned the loss of her mother in Paris as students returned from the 1968 barricades, and she followed her ambition while fighting for her place as a woman and a humanist at MIT. There, Turkle found turbulent love and chronicled the wonders of the new computer culture, even as she warned of its threat to our most essential human connections. *The Empathy Diaries* captures all this in rich detail--and offers a master class in finding meaning through a life's work.

Based on two studies of marital quality in America twenty years apart, Alone Together shows that while the divorce rate has leveled off, spouses are spending less time together. The authors argue that marriage is an adaptable institution, and in accommodating the changes that have occurred in society, it has become a less cohesive, yet less confining arrangement.
