The Compassion-Based Workbook for Christian Clients integrates contemporary research in clinical psychology on compassion-based approaches to shame with a Christian worldview, offering a wide variety of strategies for Christians to better understand and combat shame and negative self-judgments. Chapters lay out a four-step process to help clients let go of unhelpful thinking patterns that lead to shame, experience God’s compassion on a deeper level, and extend this compassion to themselves and others. Readers will find a wealth of Christian-sensitive experiential exercises, journaling assignments, biblical examples, and case examples throughout the workbook. Audio recordings for several guided meditations are also provided to help Christians practice the strategies offered in the workbook.

Students and recent graduates of counseling and human services programs will consider The Counselor’s Companion an indispensable tool to enhance professional practice, knowledge, and skill. The text is a reference-style resource that provides a bridge across the gap between the classroom and the challenges of the practice.

There is a new trend in anti-cancer therapeutics development: a targeted therapy and precision medicine that targets a subgroup of patients with specific biomarkers. An in vitro diagnostic (IVD) assay is required to identify a subgroup of cancer patients who would benefit from the targeted therapy, or not likely benefit, or have a high risk of side effects from the specific drug treatment. This IVD or medical device is called a companion diagnostic (CDx) assay. It is key to have a robust CDx assay or device for the success of targeted therapy and precision medicine. This book covers the technical, historical, clinical, and regulatory aspects of CDx in precision medicine. Clearly, more and more newly developed oncology drugs will require accompanying CDx assays, and this book, with chapters contributed by renowned oncologists, provides a comprehensive foundation for the knowledge and application of CDx for precision medicine.

Brill’s Companion to the Reception of Presocratic Natural Philosophy in Later Classical Thought explores both explicit and hidden influences of Presocratic (6–4th c. BCE) early scientific concepts, such as nature, elements, principles, soul, organization, causation, purpose, and cosmos in Platonic, Aristotelian, and Hippocratic philosophy

This Companion showcases the best scholarship on Ian McEwan’s work, and offers a comprehensive demonstration of his importance in the canon of international contemporary fiction. The whole career is covered, and the connections as well as the developments across the oeuvre are considered. The essays offer both an assessment of McEwan’s technical accomplishments and a sense of the contextual factors that have provided him with inspiration. This volume has been structured to highlight the points of intersection between literary questions and evaluations, and the treatment of contemporary socio-cultural issues and topics. For the more complex novels - such as Atonement - this book offers complementary perspectives. In this respect, The Cambridge Companion to Ian McEwan serves as a prism of interpretation, revealing the various interpretive emphases each of McEwan’s more complex works invite, and to show how his various recurring preoccupations run through his career.

The 59 chapters in this volume, written by leading researchers from around the world, provide scholars and students with an engaging and authoritative survey of current thinking in media and gender research. The Companion includes the following features: With each chapter addressing a distinct, concrete set of issues, the volume includes research from around the world to engage readers in a broad array of global and transnational issues and intersectional perspectives. Authors address a series of important questions that have consequences for current and future thinking in the field, including postfeminism, sexual violence, masculinity, media industries, queer identities, video games, digital policy, media activism, sexualization, docusoaps, teen drama, cosmetic surgery, media Islamophobia, sport, telenovelas, news audiences, pornography, and social and mobile media. A range of academic disciplines inform exploration of key issues around production and policymaking, representation, audience engagement, and the place of gender in media studies. The Routledge Companion to Media and Gender is an essential guide to the central ideas, concepts and debates currently shaping media and gender research.

This book offers a comprehensive overview of the key concepts and issues of contemporary political philosophy, providing an essential reference work for scholars and advanced students. It is structured in three parts, covering methodological issues; tools and argumentative strategies employed by political philosophy; and concepts and topics key to the discipline. Expert authors from around the world have written twenty chapters in a consistent and engaging style. Each chapter is thoroughly cross-referenced allowing students to appreciate how methodological issues relate to each other, and how methodology and argumentative tools affect the way substantial issues are addressed. The chapters are supplemented by further reading lists and selected bibliographies to aid further research. The companion will be required reading for masters and post-doctoral students, providing them with the appropriate tools for approaching political philosophy in a more thoughtful way, and showing how substantive topics are addressed within different perspectives and paradigms. The companion also provides upper-level undergraduates with a sophisticated introduction to the relevant problems and challenges political philosophy addresses.
