The scientist who has
been dubbed the “Father
of Intelligent Design”
and author of the

Get Free
Darwin's Black
Box
groundbreaking book
Darwin's Black Box
contends that recent
scientific discoveries
further disprove
Darwinism and
strengthen the case for
an intelligent creator. In
his controversial
bestseller Darwin's
Black Box, biochemist
Michael Behe
challenged Darwin's
theory of evolution,

Get Free Darwins Black

arguing that science itself has proven that intelligent design is a better explanation for the origin of life. In Darwin Devolves, Behe advances his argument, presenting new research that offers a startling reconsideration of how Darwin's mechanism works, weakening the theory's validity even more. A system of

Get Free Darwins Black

natural selection acting on random mutation, evolution can help make something look and act differently. But

evolution never creates something organically.

Behe contends that Darwinism actually works by a process of devolution—damaging cells in DNA in order to create something new at the lowest biological

Get Free Darwins Black

Box The levels. This is important, he makes clear, because it shows the Darwinian process cannot explain the creation of life itself.

“A process that so easily tears down sophisticated machinery is not one which will build complex, functional systems,” he writes. In addition to disputing the methodology of

Get Free Darwins Black

Darwinism and how it conflicts with the concept of creation, Behe reveals that what makes Intelligent Design unique—and right—is that it acknowledges causation. Evolution proposes that organisms living today are descended with modification from organisms that lived in

Get Free Darwins Black

Box The distant past. But Intelligent Design goes a step further asking, what caused such astounding changes to take place? What is the reason or mechanism for evolution? For Behe, this is what makes Intelligent Design so important.

The author of Darwin's
Black Box draws on

Box The
Biochemical
Challenge To
Evolution."--New York
Times Book Review

Michael J. Behe

A brilliant book
celebrating
improbability as the
engine that drives life,
by the acclaimed author
of *The Selfish Gene* and
The Blind Watchmaker.

Get Free Darwins Black

The human eye is so complex and works so precisely that surely, one might believe, its current shape and function must be the product of design. How could such an intricate object have come about by chance? Tackling this subject—in writing that the New York Times called "a masterpiece"—Richard

Get Free Darwins Black

Dawkins builds a carefully reasoned and lovingly illustrated argument for evolutionary adaptation as the mechanism for life on earth. The metaphor of Mount Improbable represents the combination of perfection and improbability that is epitomized in the seemingly "designed"

Get Free Darwins Black

complexity of living things. Dawkins skillfully guides the reader on a breathtaking journey through the mountain's passes and up its many peaks to demonstrate that following the improbable path to perfection takes time. Evocative illustrations accompany Dawkins's eloquent descriptions of

Get Free Darwins Black

extraordinary

adaptations such as the teeming populations of figs, the intricate silken world of spiders, and the evolution of wings on the bodies of flightless animals. And through it all runs the thread of DNA, the molecule of life, responsible for its own destiny on an unending pilgrimage through time. Climbing

Get Free Darwins Black

Mount Improbable is a book of great impact and skill, written by the most prominent Darwinian of our age.

Michael J Behe

In this book, first published in 2004, William Dembski, Michael Ruse, and other prominent philosophers provide a comprehensive balanced overview of the debate

Get Free Darwins Black

Box concerning biological
origins - a controversial
dialectic since Darwin
published *The Origin of
Species* in 1859.

Invariably, the source of
controversy has been
'design'. Is the
appearance of design in
organisms (as exhibited
in their functional
complexity) the result of
purely natural forces
acting without prevision

Get Free Darwins Black

Box The
Biochemical
Challenge To
Evolution
Michael J. Behe

or teleology? Or, does the appearance of design signify genuine prevision and teleology, and, if so, is that design empirically detectable and thus open to scientific inquiry? Four main positions have emerged in response to these questions: Darwinism, self-organisation, theistic evolution, and

Get Free Darwins Black

intelligent design. The contributors to this volume define their respective positions in an accessible style, inviting readers to draw their own conclusions.

Two introductory essays furnish a historical overview of the debate.

In this book William A. Dembski brilliantly argues that intelligent

Get Free Darwins Black

Design provides a crucial link between science and theology. This is a pivotal work from a thinker whom Phillip Johnson calls "one of the most important of the 'design' theorists."

The design inference uncovers intelligent causes by isolating their key trademark: specified

Get Free Darwins Black

Box The
Biochemical
Challenge To
Evolution
Michael J. Behe

events of small probability. Just about anything that happens is highly improbable, but when a highly improbable event is also specified (i.e. conforms to an independently given pattern) undirected natural causes lose their explanatory power.

Design inferences can be found in a range of

Get Free
