Charles MacKay's groundbreaking examination of a staggering variety of popular delusions, crazes and mass follies is presented here in full with no abridgements. The text concentrates on a wide variety of phenomena which had occurred over the centuries prior to this book's publication in 1841. Mackay begins by examining economic bubbles, such as the infamous Tulipomania, wherein Dutch tulips rocketed in value amid claims they could be substituted for actual currency. As we progress further, the scope of the book broadens into several more exotic fields of mass self-deception. Mackay turns his attention to the witch hunts of the 17th and 18th centuries, the practice of alchemy, the phenomena of haunted houses, the vast and varied practices of fortune telling and the search for the philosopher's stone, to name but a handful of subjects. Today, Extraordinary Popular Delusions and The Madness of Crowds is distinguished as an expansive, well-researched and somewhat eccentric work of social history.

chapters deal with fads and delusions that have sprung from ideas, beliefs, and causes that still have champions today: the prophecies of Nostradamus, the coming of comets and Judgment Day, the Rosicrucians, and astrology. The book also surveys controversial people and movements of the past: necromancy, Father Hell and Magnetism, Anthony Mesmer and Mesmerism, the Crusades, sorcery and the burning of witches, not to mention the popularity of murder by slow poisoning.

2017 Reprint of 1852 Edition. Being selections from Memoirs of Extraordinary Popular Delusions and the Madness of Crowds. Mackay's work, first published in 1841, chronicles the various fallacies and delusions that have afflicted human thinking during the modern period. Though the scope of the first edition was wide ranging--including alchemy, fortune-telling, haunted houses and other forms of philosophical delusion--the present editions reprints only those portions of the original work that pertain to economic bubbles. Present-day writers on economics, such as Michael Lewis and Andrew Tobias, laud Mackay's three chapters on the Tulipomania, the South Sea Bubble, and on the Mississippi Scheme.
