Permitted development rights for householders

Technical Standards for Homes. BRE develop and operate a number of technical standards for the assessment and certification of new and existing homes, including Home Quality Mark, BREEAM Domestic Refurbishment, BREEAM International New Construction and Code for Sustainable Homes. Each standard enables house builders or housing providers to demonstrate the quality and added benefits of your new or refurbished home – such as being likely to need less maintenance, being cheaper to run, better ...

Homes - BREEAM

This Technical Guide sets out the requirements for the Code and the process for achieving a Code assessment. It aims to make gaining a Code assessment as simple, transparent and rigorous as...
