They're back! Rediscover the zaniest and most lovable characters you've ever met in the Mr. Men and Little Miss series—the best-selling, timeless, and universal books, which have sold millions of copies worldwide. Digitally available for the first time, these bright, charming books, with their easily recognizable characters, are easy enough for young readers and witty enough for adults. This fantastic read-to-me edition is read by Audie and Grammy award-winning narrator of Harry Potter, Jim Dale, who perfectly captures each character ' s unique voice and personality. Get ready to fall in love with Mr. Men and Little Miss books all over again or for the very first time!

No collection is complete without the latest adorable additions to the ever-popular, always brimming with personality Mr. Men and Little Miss family. Over 150 million copies sold worldwide! Mr. Cheerful walks through life with a smile on his face, but he ' s got a less-than-cheerful secret to hide.

a photographic documentary of communities in the Appalachian mountains accompanied by observations from the local population

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration?s three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

The objective of this book is to organize and document the technical, analytical, and practical aspects of present-day apple processing. No collected works have been published on processed apple products for more than thirty years. During that time many changes have taken place in the apple-processing industry. There are fewer but larger plants processing apples from larger geographical areas because of advances in transportation and storage of fruit. In addition sophisticated technical advances in the processing and packaging of apple products have also occurred. This volume is designed to serve primarily as a reference book for those interested and involved in the processed apple industry. An attempt has been made to provide a central source of historical, currently practical, and theoretical information on apple processing. References have been cited to give credibility and assist those who may wish to read further on a particular subject. If this book successfully summarizes present knowledge for readers and assists in the continued improvement of commercial fruit processing, I will be pleased. I would like to thank the many people in the apple industry who have requested information and encouraged the writing of this book. The late Dr. Robert M. Smock, Professor Emeritus, Cornell University, and coauthor of Apples and Apple Products, originally published in 1950, gave his blessings and encouragement to this undertaking.

Derivatives and Risk Management provides readers with a thorough knowledge of the functions of derivatives and the many risks associated with their use. It covers particular derivative instruments available in India and the four types of derivatives. It is useful for postgraduate students of commerce, finance and management, fund managers, risk-management specialists, treasury managers, students taking the CFA examinations and anyone who wants to understand the derivatives market in India.

This handbook comprehensively presents the current status of the manufacturing of the most important meat products. Editor and renowned meat expert Fidel Toldrá heads an international collection of meat scientists who have contributed to this essential reference book. Coverage is divided into three parts. Part one, Technologies, begins with discussions on meat chemistry, biochemistry and quality and then provides background information on main technologies involved in the processing of meat, such as freezing, cooking, smoking, fermentation, emulsification, drying and curing. Also included are key chapters on packaging, spoilage prevention and plant cleaning and sanitation. Part two, Products, is focused on the description of the manufacture of the most important products, including cooked and dry-cured hams, cooked and fermented sausages, bacon, canned meat, paté, restructured meats and functional meat products. Each chapter addresses raw materials, ingredients and additives, processing technology, main types of products, production data, particular characteristics and sensory aspects, and future trends. Part three, Controls, offers current approaches for the control of the quality and safety of manufactured meat products, with coverage including sensory evaluation; chemical and biological hazards including GMOs; HACCP; and quality assurance. This book is an invaluable resource for all meat scientists, meat processors, R&D professionals and product developers. Key features: Unparalleled international expertise of editor and contributing authors Addresses the state of the art of manufacturing the most important meat products Special focus on approaches to control the safety and quality of processed meats Extensive coverage of production technologies, sanitation, packaging and sensory evaluation

Long and skinny or short and wide, modern and minimal or traditional and scrappy, the 56 toppers in this book fit any table. This collection features patterns by today's favorite designers. Styled photography offers a colorful preview of how the quick-to-stitch projects look on tabletops and shows creative ways to include the designs in your home decor Seasonal and holiday-themed projects are ideal for gift giving and year-round stitching Double the variety with two comprehensive sections: traditional, long table runners and diversely shaped table toppers
