How to test pH levels in water? -  
WaterFilterShop.co.uk Blog

The Science Behind Water pH The pH scale is a measurement of how acidic or alkaline a substance is.

pH 7 is neutral, and will appear yellow on a litmus test strip.

Anything orange to red is acidic, while green to purple is basic. Our results found that the water we tested was slightly more alkaline on the pH scale, with a rating of about 8.
