"Karin Berg ö ö Larsson (1859-1928) was a mother of eight and wife to Sweden's beloved painter, Carl Larsson. She was herself a well-regarded artist but gave it up when she married, at the request of her husband. Replacing paintbrushes and canvas with needles and cloth, she turned a somewhat ugly cottage into a designer showcase"--

Building Information Modelling (BIM) is a global phenomenon which is gaining significant momentum across the world. Currently there is little information on how to realise and monitor benefits from implementing BIM across the life-cycle of a built environment asset. This book provides a practical and strategic framework to realise value from implementing BIM by adapting Benefit Realisation Management theory. It presents an approach for practitioners aiming to implement BIM across the life-cycle of built environment assets, including both buildings and infrastructure. Additionally, the book features: wide-ranging information about BIM, the challenges of monitoring progress towards benefit goals and the greater context of

Implementation; a set of dictionaries that illustrate how benefits can be achieved, what the benefit flows are and the enabling tools and processes that contribute to achieving and maximising them; a suite of measures that can serve to monitor progress with examples of how they have been used to measure benefits from BIM; real-world examples from across the world and life-cycle phases that show how these benefits can be achieved; and information on international maturity and competency measures to complement the value realisation framework. Including a blend of academic and industry input, this book has been developed in close collaborative consultation with industry, government and international research organisations and could be used for industry courses on BIM benefits and implementation for asset management or by universities that teach BIM-related

Prezados Leitores! Elaborei esta obra, como autodidata, c é tico, humanista , racionalista, livre pensador, naturalista, pacifista, pesquisador estudioso independente da origem da hist ó ria do cristianismo primitivo. N ã o sou terapeuta, sou um escritor "ghost writer" que observa a vida com fome e curiosidade. Foi ó sito de publicar meus ensaios, questionar e colocar em xeque conceitos e contradi ç õ es como religiosidade e dar uma nova vis ã o sobre as origens hist ó ricas das religi õ es que surgiu esse livro. Espero surpreender voc ê . O livro relata fatos, assuntos memor á veis e provocativos com o objetivo de conscientizar, construir, iluminar. Certos fatos n ã o podem mais ser ignorados como: De onde viemos? Como surgiu a

vida? Por que estou aqui vivendo? Quem somos? Qual o sentido da vida e como devemos nos comportar em relação a dogmas religiosos? Existe vida eterna? Eu não sei tudo, mas descobri o suficiente filosofando. As únicas coisas que temos e que mais se aproximam do que poderíamos presumir chamamos de respostas advêm de fontes como as: científicas, históricas, filosóficas e religiosas. Também questiono se foi um Deus quem criou o homem à sua imagem e semelhança, porque sofremos e se as religiões oferecem a resposta através da crença religiosa. A Bíblia é a palavra inspirada por Deus? E as contradições nos livros ditos sagrados? A Bíblia e sua doutrina cristã é verdadeira? Os livros santos são a fonte da verdade ou eles são apenas mitologias cristãs, lendas e fábulas milenares? Todos nós nascemos em pecado? Estudo

Esta obra compila varios ensayos acerca  
del Estado de derecho y los continuos  
llamados que, desde distintos á mbitos, se  
realizan para evitar lo que algunos  
consideran la "crisis" de este principio. Los  
autores se refieren a la problem á tica  
desde distintas perspectivas, a saber: desde  
la teor í a del derecho, desde el derecho  
p ú blico y desde el derecho corporativo.

Los ensayos han sido escritos, en su mayor í a, por estudiantes del programa de Doctorado en Derecho de la Universidad Externado de Colombia, entre quienes se encuentran reconocidos catedr á ticos, jueces, litigantes y servidores p ú blicos. La obra se complementa con valiosos aportes de juristas como Mark Tushnet, profesor de la Universidad de Harvard [Estados Unidos] y Thomas da Rosa de Bustamante, profesor de la Universidad Federal de Minas Gerais [Brasil], quienes se refieren a los riesgos que para el principio de Estado de derecho representan la hipercomplejidad normativa y la de asuntos pol í ticamente sensibles, respectivamente. Con seguridad, estos ensayos ser á n de gran inter é s para la comunidad acad é mica, y dar á n mucho de qu é hablar.

Vaccine and the Science, Safety, and Business Behind It Cancer strikes fear in people ' s hearts around globe. So the appearance of a vaccine to prevent cancer – as we are assured the human papillomavirus (HPV) vaccine will – seemed like a game-changer. Since 2006, over eighty countries have approved the vaccine, with glowing endorsements from the world ' s foremost medical authorities. Bringing in over \$2.5 billion in annual sales, the HPV vaccine is a pharmaceutical juggernaut. Yet scandal now engulfs it worldwide. The HPV Vaccine on Trial is a shocking tale, chronicling the global efforts to sell and compel this alleged miracle. The book opens with the vaccine ' s invention, winds through its regulatory labyrinths, details the crushing denial and dismissal of reported harms and deaths, and uncovers the enormous profits pharma and

Inventors have reaped. Authors Holland, Mack Rosenberg, and Iorio drill down into the clinical trial data, government approvals, advertising, and personal accounts of egregious injuries that have followed in countries as far-flung as Japan, Australia, Colombia, India, Ireland, the U.K. and Denmark. The authors have written an unprecedented expos é about this vaunted vaccine. Written in plain language, the book is for everyone concerned — parents, patients, doctors, nurses, scientists, healthcare organizations, government officials, and schools. Ultimately, this book is not just about the HPV vaccine, but about how industry, government, and medical authorities may be putting the world ' s children in harm ' s way.
